COMPANY HISTORY

Rayat Al-Shams for General Contracting L.L.C. (RASCO) was established in 2009 to provide reliable engineering, construction, and industrial solutions supporting the development of Iraq's energy, oil & gas, and infrastructure sectors. From its early operations, the company focused on building a strong foundation based on technical expertise, professional project execution, and commitment to safety and quality.

Over the years, Rayat Al-Shams has steadily expanded its capabilities and technical expertise, growing from general contracting activities into a multidisciplinary company specializing in civil, mechanical, electrical, and oil & gas related works. Through consistent project performance, experienced leadership, and a highly skilled workforce, the company has built a solid reputation for dependable execution and professional project management.

Driven by continuous improvement and investment in people, equipment, and modern management systems, RASCO has successfully participated in numerous industrial and construction projects, adapting to the evolving standards of the energy industry and client requirements. The company's commitment to international quality, health, safety, and environmental practices has further strengthened its position as a trusted contractor in the Iraqi market.

Today, Rayat Al-Shams continues its growth journey with a clear vision to deliver high-value engineering and construction solutions, supporting national development and contributing to the expansion of the oil & gas and industrial sectors through safe, efficient, and reliable project delivery.

OUR MISSION

To deliver safe, reliable, and high-quality industrial, energy, and infrastructure solutions through engineering excellence, disciplined project execution, and a strong commitment to integrity, safety, and client success.

At RASCO / Rayat Al-Shams, we transform complex challenges into efficient, practical results — supporting the growth of Iraq's energy and construction sectors while building long-term partnerships based on trust and performance.

OUR VISION

To become a leading EPC and industrial contracting partner in the region, recognized for world-class execution, uncompromising safety standards, and the ability to deliver critical energy and infrastructure projects that power sustainable progress.

CODE OF ETHICS

Integrity and Professional conduct

Rayat Al-Shams conducts all business activities with honesty, transparency, and accountability. We maintain the highest ethical standards in our relationships with clients, partners, employees, and communities.

Health, Safety and Environmental Responsibility (HSE)

Safety is a core value of our organization. We are committed to protecting our employees, clients, and the environment by promoting safe working practices, preventing incidents, and complying with all applicable health, safety, and environmental regulations.

Compliance with Laws and Regulations

Rayat Al-Shams operates in full compliance with Iraqi laws, industry regulations, and international standards. We uphold fair and lawful business practices in all operations and contracts.

Quality and Excellence

We are committed to delivering high-quality services and reliable project execution. Continuous improvement, technical excellence, and professional performance are integral to our work culture.

Respect and Fair Treatment

We treat all employees, clients, and stakeholders with fairness, dignity, and respect. Discrimination, harassment, or unfair treatment in any form is not tolerated.

Anti-Corruption and Anti-bribery

Rayat Al-Shams strictly prohibits bribery, corruption, and unethical influence in any form. All business decisions must be made based on merit, fairness, and transparency.

Confidentiality and Information Protection

We respect the confidentiality of client and company information and ensure that sensitive data is protected and used responsibly.

Responsibility to Clients and Stakeholders

We are committed to building long-term partnerships through reliability, trust, and open communication. Our goal is to deliver value while meeting project requirements safely and efficiently.

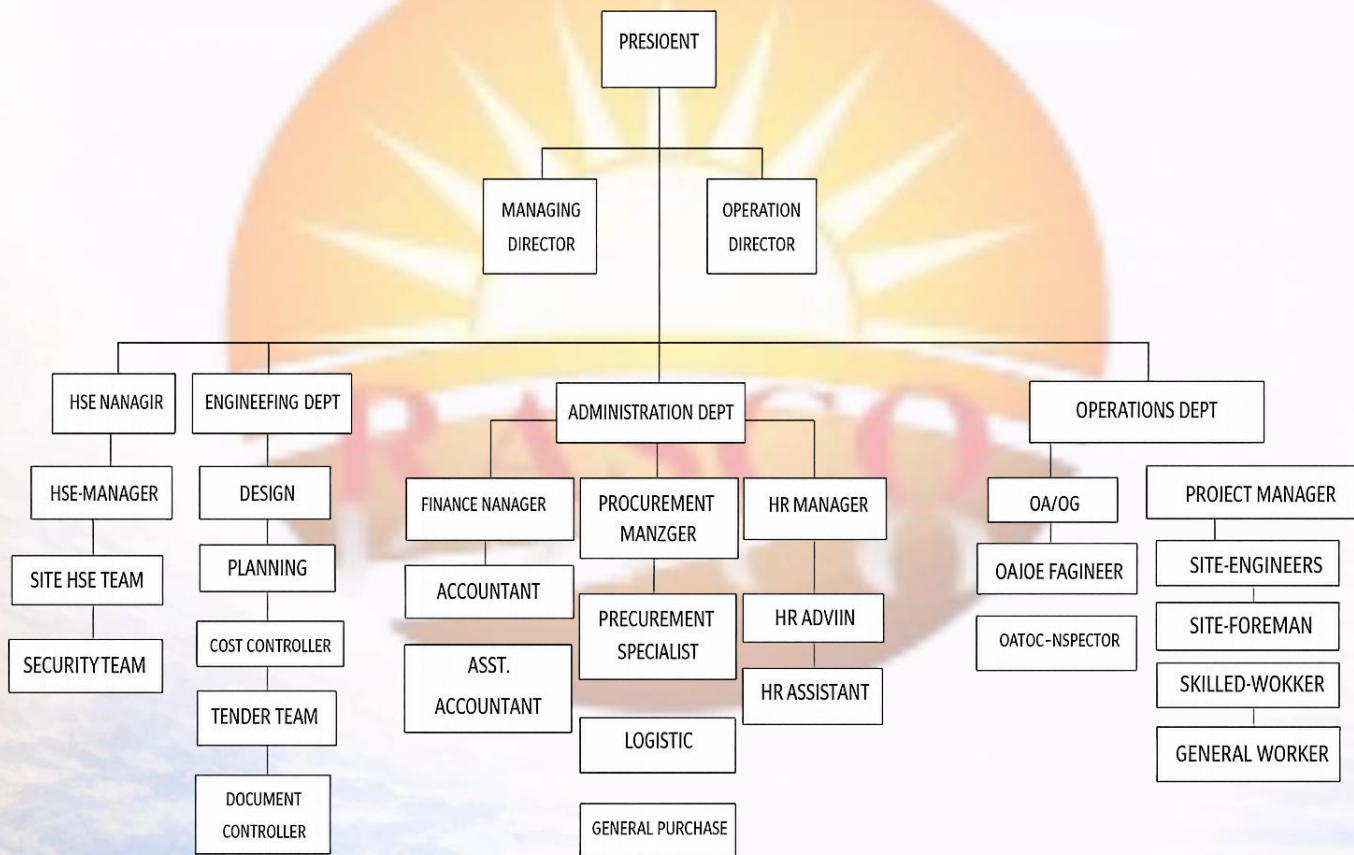

Professional Competence and Development

We recognize our employees as our greatest asset and continuously invest in training, development, and knowledge sharing to maintain high professional standards.

Sustainability and Community Commitment

Rayat Al-Shams aims to contribute positively to society by supporting sustainable industrial development and responsible resource utilization.

ORGANIZATION CHART

STAFF

Rayat Al-Shams currently employs approximately 300 personnel representing a strong and experienced workforce that forms the foundation of our operational success. The company is led by experienced management professionals who provide strong leadership, strategic direction, and effective decision-making to ensure projects are executed safely, efficiently, and in alignment with client expectations.

Our team consists of highly qualified engineers, supervisors, technical specialists, and skilled workforce members who bring extensive industry experience across oil & gas, construction, and industrial projects. Through continuous training, professional development, and adherence to international standards, our personnel maintain high levels of competence, productivity, and safety awareness.

PROJECT MANAGEMENT

The Critical Success Factors for Effective Project Management

The successful delivery of any project depends on a number of key factors that ensure efficient execution, risk control, and achievement of project objectives. At RASCO / Rayat Al-Shams, the following critical success factors form the foundation of effective project management:

- **Strong HSE Management System**

A proactive Health, Safety, and Environmental management system is essential to protect personnel, assets, and the environment while ensuring safe project execution. Strong safety leadership and risk control measures are critical to achieving incident-free operations.

- **Effective Quality Management**

A robust Quality Assurance and Quality Control (QA/QC) system ensures that all project activities comply with client requirements, specifications, and international standards, resulting in reliable and sustainable outcomes.

- **Inspection & Testing Control**

Structured inspection and testing procedures guarantee that construction and installation activities meet technical requirements before progressing to subsequent phases. Proper documentation and client approvals are essential for maintaining quality and compliance.

- **Qualified Personnel**

Competent engineers, supervisors, skilled labor, and technical specialists are fundamental to safe and efficient execution. Skilled manpower ensures productivity, technical accuracy, and overall project success.

- **Reliable Equipment & Resources**

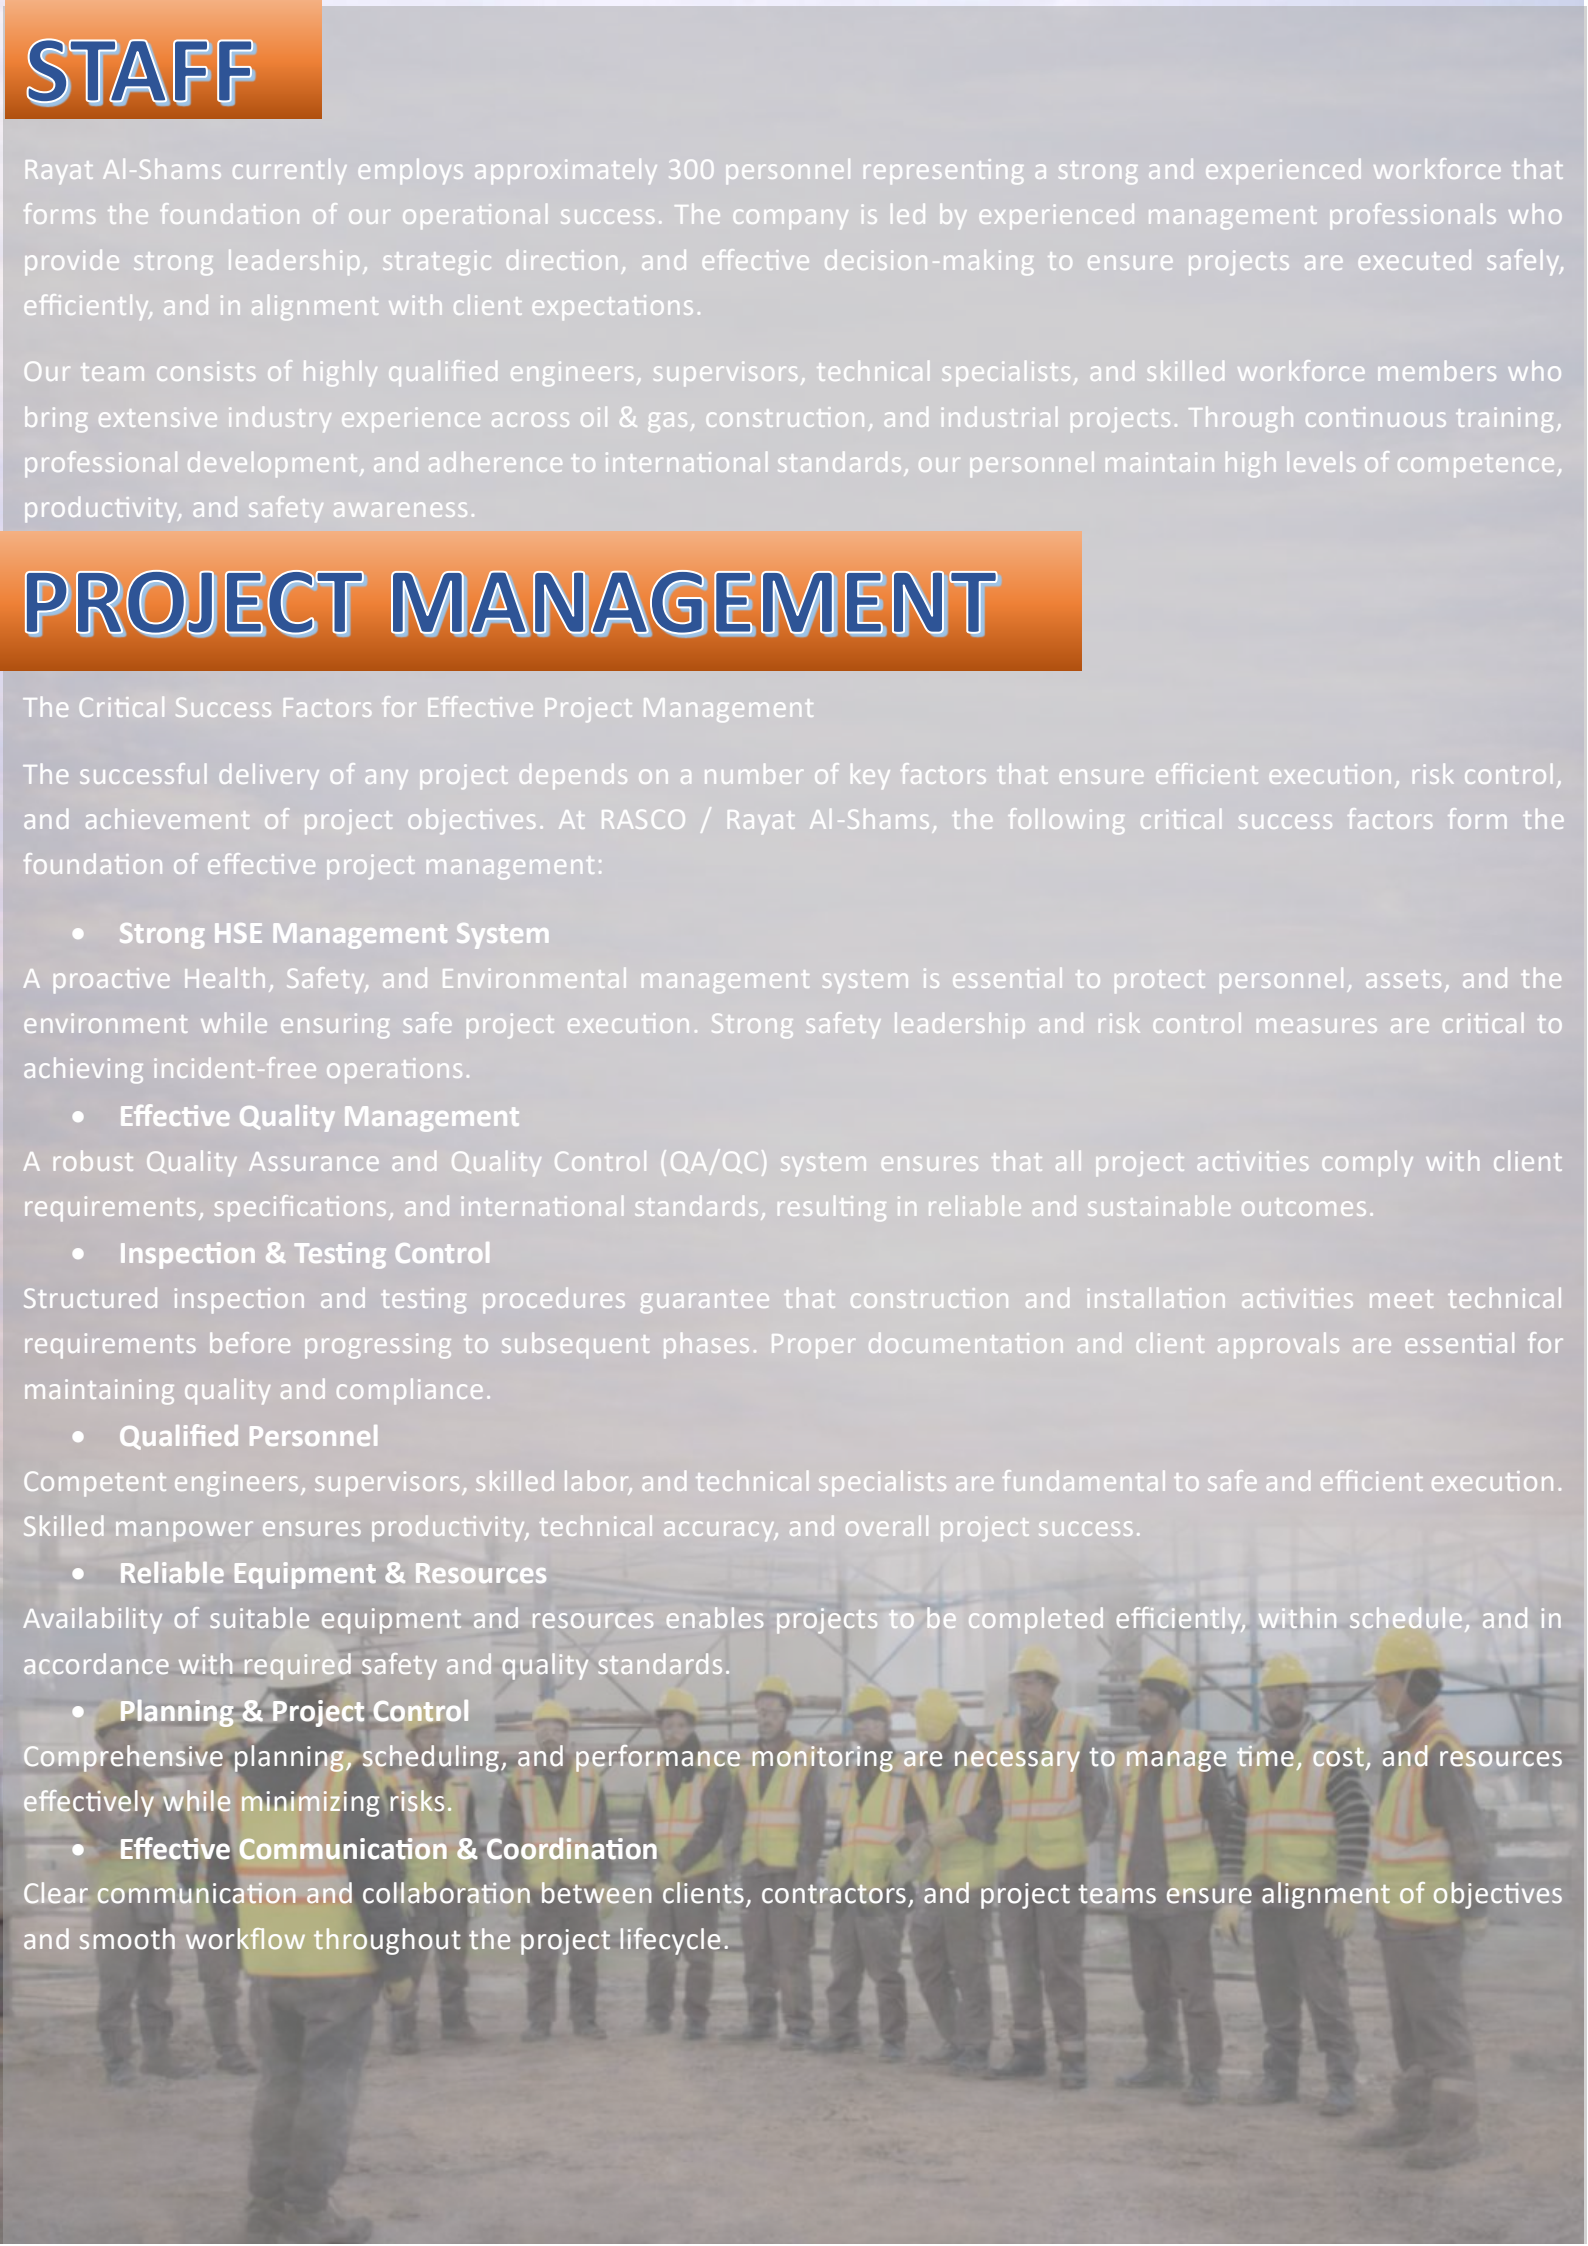

Availability of suitable equipment and resources enables projects to be completed efficiently, within schedule, and in accordance with required safety and quality standards.

- **Planning & Project Control**

Comprehensive planning, scheduling, and performance monitoring are necessary to manage time, cost, and resources effectively while minimizing risks.

- **Effective Communication & Coordination**

Clear communication and collaboration between clients, contractors, and project teams ensure alignment of objectives and smooth workflow throughout the project lifecycle.

KEY LEADERSHIP & TECHNICAL EXPERTISE

Project Management Leadership

Project execution is led by experienced engineering professionals with extensive expertise in large-scale oil & gas and industrial projects across Iraq. Our project management team ensures safe execution, schedule control, cost efficiency, and alignment with client objectives through disciplined planning and effective risk management.

Senior Civil Engineering Expertise

Our civil engineering specialists bring over three decades of QA/QC experience across oil & gas, NDT, and electrical infrastructure projects, ensuring compliance with international standards and client specifications.

Engineering Capability & Technical Strength

Rayat Al-Shams provides integrated engineering solutions including design, detailed engineering, and technical support across civil, mechanical, electrical, and oil & gas disciplines, utilizing modern tools and advanced engineering methodologies.

Core Fields of Activity

- Engineering, Procurement & Construction (EPC Support)
- Mechanical & Piping Construction
- Structural Steel & Heavy Industrial Construction
- Static & Rotating Equipment Installation
- Electrical, Instrumentation & Control (E&I)

Workforce Capability & Execution Strength

Our execution model is supported by a skilled and flexible workforce, enabling efficient mobilization and rapid project delivery under demanding operating conditions. RASCO strategically engages qualified local subcontractors based on project scope and technical requirements, ensuring strong local integration while maintaining strict supervision, quality control, and HSE compliance.

All subcontracted activities are carefully evaluated and managed in accordance with project standards, ensuring consistent performance, safety, and delivery excellence.

Executive Positioning Statement

Backed by experienced leadership, advanced engineering capability, and disciplined project execution, RASCO / Rayat Al-Shams positions itself as a reliable industrial partner delivering high-value solutions for complex oil & gas and infrastructure projects.

OUR SERVICES

- Engineering, Procurement & Construction (EPC Support)
- Mechanical, Piping and Tank Construction
- Civil Construction & Infrastructure Development
- Structural Steel & Heavy Industrial Construction
- Static & Rotating Equipment Installation
- Heavy Lifting, Rigging & Critical Operations
- Electrical, Instrumentation & Control (E&I)
- Operations Support, Maintenance & Shutdown Services
- Testing, Pre-Commissioning & Commissioning Services
- Water & Waste Water treatment

HSE & QUALITY POLICY

At **Rayat Al-Shams for General Contracting L.L.C**, we are fully committed to delivering engineering, construction, and industrial services with the highest standards of **Health, Safety, Environmental protection, and Quality excellence**.

We believe that protecting people, assets, and the environment is a fundamental value and an integral part of our operational success. Our management and workforce share a common responsibility to maintain safe working conditions, prevent incidents, and ensure continuous improvement across all activities.

OUR COMMITMENTS

- ✓ Ensure full compliance with applicable legal, client, and international standards and regulations.
- ✓ Maintain a strong safety culture through risk assessment, hazard identification, and preventive controls.
- ✓ Prevent workplace injuries, occupational illnesses, and environmental impacts through proactive planning and supervision.
- ✓ Deliver projects that meet or exceed client expectations through strict quality control and assurance processes.
- ✓ Provide continuous training and competence development to all employees and subcontractors.
- ✓ Promote accountability, teamwork, and leadership engagement in HSE and Quality performance.
- ✓ Continually improve our Integrated Management System aligned with international standards.

MANAGEMENT COMMITMENTS

RASCO leadership is fully committed to allocating the necessary resources, skilled personnel, and effective systems to ensure safe operations, environmental responsibility, and consistent quality in every project we undertake.
